Professional Work Experience

9/10/2014-

Working as Assistant Professor in the Department of Internal Medicine at Texas Tech University at Permian basin. Primary responsibilities includes management and treatment of patients with different acute and chronic diseases in both inpatient and outpatient settings. Didactic teaching to medical students, interns and residents of internal medicine residency program.

10/1/2010 – 8/31/2014

Methodist Health System, Metropolitan Hospital at San Antonio, Texas

Worked as a Internal Medicine hospitalist at Metropolitan Methodist Hospital since October 2010. Primary responsibilities included admitting patients, daily follow up, treatment and management of all hospitalized patients with varied varieties of acute and chronic diseases including but not limited to various medical and surgical problems. Assist in rapid response and critical care coverage for ICU patients.

07/2007- 06/2010

Mount Sinai School Of Medicine, Queens Hospital Center, New York

I worked as a resident in the Department Of Internal Medicine since 1st July 2007. I Supervised history taking and physical exam skills done by medical students and interns as a resident at Queens Hospital Center. Didactic teaching to medical students and interns. Attained significant experience in treating and managing patients with various chronic and acute diseases in the ambulatory, inpatient, emergency and critical care setting. I gained experience and certification in performing various floor and ICU procedures e.g., intravenous cannulations, arterial punctures, thoracocentesis, abdominal paracentesis,

lumber punctures, internal jugular and subclavian vein catheterization, urinary catheterization, breast examination, pap smear, ABG analysis and sample collection.

07/2004 - 07/2007

V.M.M.C. & Safdarjung Hospital, New Delhi, India

I worked as a resident in the department of Intensive Care and Anesthesiology at Safdarjung Hospital, New Delhi. Safdarjung Hospital is a multispecialty tertiary care teaching hospital with more than 1500 beds and runs 28 routine and 7 emergency theatres. My post graduate medical residency training in this department entails rotations in the Pre Anaesthetic Care, Elective and Emergency Operation Theatres, Monitored Anaesthesia Care and Intensive care facilities.

I have attained significant experience in the administration of General or Regional Anaesthesia and related clinical care to the patients of General Surgery, Surgical Oncology, Surgical Urology, Pediatric Surgery, Orthopedic Surgery, Obstetrics and Gynecology, Cardiothoracic vascular Surgery, Neurosurgery, E.N.T., Ophthalmology, Maxillofacial, Burns and Plastic Surgery. During my rotations in Intensive Care Unit I learned managing patients on ventilator support system and providing these patients adequate nutritional support.

01/2002-02/2004

Jaswant Rai Speciality Hospital, India

Junior Resident, Dept. of Medicine

Jaswant Rai Specialty Hospital is a renowned multispecialty and research institute of Meerut, U.P., India. This medical center has daily outpatient attendance of more than 400 patients. The center has 18-bedded general ICU, 6 bedded CCU, 10 bedded Pediatric ICU, 8 bedded Neonatal ICU and very well developed Cardiology, Hematology, oncology, Gastroenterology, Neurology, Nephrology, Respiratory, Internal Medicine, Pediatrics, Surgery, Psychiatry, Endocrinology and burn departments. As a resident doctor here in the department of medicine for a period of two years I attended daily ambulatory clinic, which involved patient workup, management and follow up of various chronic and acute diseases. My in-patient duties included history taking, examination, sample collection and writing notes and orders as well as making diagnosis and management of the patients. I was on 24-36 hours duty twice a week in medicine emergency. Here I had opportunity to improve my skills in ABG's, PFT's as well as in critical care management

01/2001 - 12/2001

Maulana Azad Medical College (MAMC) and L.N.J.P.H., New Delhi, India

In this mandatory rotatory internship in Departments of Internal Medicine, General Surgery, Obstetrics and Gynecology, Community Medicine, Orthopedic surgery, Ophthalmology, ENT, and Pediatrics I was exposed to common clinical problems in these departments. My work included history taking, physical examination and initiating workup of the patients. I was involved in outpatient, inpatient and emergency patient care in these respective departments. I gained experience in handling common floor calls, common emergencies, common outpatient presentations, performing various procedures e.g. intravenous cannulations, arterial punctures, pleural and peritoneal taps, lumbar punctures, bone marrow aspiration and biopsy. I attended to subspecialty clinics in neurology, endocrinology, respiratory medicine and cardiology. I regularly participated in clinical case presentations, seminars and conferences held in these departments during my rotations.

Research Experience

1. Mount Sinai - Queens Hospital Medical Center, New York
Principal-investigator: Shiv Kumar Goel, MD. Co-investigator: Sabiha Bandagi, MD.
"Lupus Nephritis- Time of Diagnosis and long term prognosis in a community hospital". The study had been approved by the IRB and was near its completion. My project work was to determine the prognosis of patients with lupus nephritis and to determine the major factors contributing to the treatment outcome in a community health center. This study was a retrospective analysis of all the patients presented and followed up in last 17-20 years in our hospital.
2. V.M.M.C. & Safdarjung Hospital, New Delhi, India
Principal-investigator: Shiv Kumar Goel, MD. Co-investigator: Dr. P.K. Verma, MD
My research topic was "To study the risk prediction of mortality and the length of stay of patients in intensive care unit (I.C.U.) by utilizing APACHE III, MPM II and SAPS II scoring systems and to compare the predictive accuracy of these scoring system among themselves". This study was conducted on 300 consecutive ICU admissions at Safdarjung Hospital. The study group consisted of surgical as well as medical specialties of various diagnostic categories like respiratory failure, multiple trauma, GIT disorder etc. All the patients were evaluated according to APACHE II, SAPS II and MPM II scoring systems within the 1st 24 hours of their admission.

3. Mount Sinai - Queens Hospital Medical Center, New York
Conducted research assignment and a quiz on "**The long term outcome of hematuria home screening for bladder cancer in men**". This research assignment and quiz was designed for the residents and interns of my department at queens hospital center. The purpose of this study was to emphasize the importance of hematuria home screening test in the high risk population of patients in our community

- 6) Shiv Kumar Goel, Jalaja Joseph, M.M. Shenoy. "**Cardiac Tumor or Just Fat..?**" Case report and literature review of the Lipomatous Hypertrophy of the Cardiac Interatrial Septum Mimicking Cardiac Tumor and Presenting as Arrhythmias. Poster presentation, Annual Research Day 2009, Queens Hospital Center Jamaica NY.

Other Awards/Accomplishments

I was among the highest scorers in ABIM examination in 2010. Scored top ranks in Delhi and All India Premedical Entrance Exam in 1996. Second position in H.S.S.C.(12th grade) with 3rd highest marks in chemistry at all India level. Organized many house functions at the school and college level. Received scholarship under National Mathematics Olympiad Scholarship scheme in the field of science in year 1994-95. Chosen Head Boy of the class in 1994. First position in 11th grade, 1994 and Second position in S.S.C.(10th grade) in my school 1993

Seminars and Conferences:

1. American Thoracic Society, New Orleans International Conference May 14-19, 2010 New Orleans, Louisiana.
2. AMA Resident and Fellow Section and AMA Medical Student Section Research Symposium, November 2009, Houston, Texas

3. Medical Society of the State of New York (MSSNY) Resident and Fellow Section Research Symposium, May 2009, Rochester, New York.
4. New York State Thoracic Assembly, Jan 23-24, 2009, West Point, NY.
5. 39th Annual Conference of Indian Society of Anaesthesiologists, Delhi Chapter, 2005.
6. 45th Annual Conference of Indian Society of Anaesthesiologists, Delhi Chapter, 2006.
"Challenges in Anaesthesia- Pediatrics to Geriatrics"
7. CME and Workshop on the Airway Management, Maneuvers and Gadgets (Basic and Advanced Course), Organized by MAMC and LNJPB, Delhi, 2006.

Hobbies & Interests:

- 1) Adventure sports like river rafting, ice skiing, paragliding, etc.
- 2) Meditation for relaxation - Member of Art of Living.
- 3) Painting- specifically on the old village themes.
- 4) Travel- A desire to meet new people and find out about different cultures and life styles has led me to travel extensively in India.
- 5) Listening to soft music

Language Fluency (Other than English)

Good command over written and spoken knowledge of Hindi, the National Language of India. Also, working knowledge of Punjabi, a dialect used in northern India.

Visa Status

H1B (working visa)
